

# Africa ICT B2B Networking Forum

October 1 - 2 - K.I.C.C, Nairobi - Kenya

**THEME: AFRICAN ICT LANDSCAPE; EXPLORING THE EMERGING OPPORTUNITIES**  
**LANGUAGE: ENGLISH & FRENCH**

## Introduction:

Over the last 10 years, the ICT sector in Africa has experienced tremendous growth witnessed in all African countries, though at different speeds. Countries have transitioned to technology-enabled platforms to enhance efficiency in service delivery, lower costs of operation and safe guard inclusion. Despite embracing and leveraging ICT by these African countries, a lot needs to be done to achieve full digitization through investment in ICT infrastructure, enabling policy environment, improve quality of investment, enhance more linkages, adequate skills and

enhanced privacy and security.

It is from this background that **TEMS Africa ICT Expo** with the support of **Ministry of ICT Kenya** is converging African ICT industry players and their global peers for a two days networking forum '**Africa ICT B2B Networking Forum**' where the African representatives shall be sharing about the African ICT landscape and the emerging ICT opportunities in their respective countries to their global peers for cooperation, business, fact finding and scheduled meetings. The forum is running concurrently with TEMS Africa ICT Expo and Conference from 30th September to 2nd October 2020 in Nairobi Kenya.

## Participants

- Ministries of ICT, Regulatory Authorities, Investment Authorities, Trade Commissions, Innovation Hubs.
